THURSDAY.

THE STATE CAPITAL.

Our Correspondent Gives the Tound City Journal a Few words of Instruc-tion—The Railroad Commissioners— Speech by Gibson—Domestic Rela-tions—Mrs. Brown.

To the Editor of the Cairo Bulletin

by Hon, H. W. Webb of your city, in re-

lation to the Southern Illinois Insan-

printion of \$360,000, to complete the

building and equip it. The bill is the

work of the commissioners of the Asylum, who are responsible for the somewhat extravagant appropriation asked for. I

see that the Mound City Journal is pleased

to insinuate that Mr. Webb is not useful because he has not been spending his time

n making speeches. The Journal does

not seem to realize that talk is not work,

and that the usefulness of a member is not

to be measured by the number of hours he

waste in making buncombe speeches, but

by the care with which he records his

ayes and nays. The House of Represen-

tatives has wasted a great deal of time,

and thereby consumed a large sum of the

people's money, and Mr. Webb has not lent his breath to prolong unnecessary

discussion, but has steadily voted in the

line of economy and attention to business.

The bill creating three commissioners to

recute the laws in relation to railroads,

has passed the Senate. The salary of the

commissioners is fixed at \$2,500 per annum

with a clerk at \$1500. They are to keep

an office in Springfield, and are themselves

to personally visit every county in the

State in which there is a railroad station

to bear such complaints as may be made

against the railroads for violation of the

law, and are to prosecute the offenders at the expense of the State. They are also

charged with a supervision of the ware-

house business of the State, and may revoke the licenses of warehousemen who

do not heed the provisions of the law on

The appropriation of \$1,500,000, asked

for by the commissioners of the State House has been reduced(or rather the

asking has been reduced,) to a million and

a quarter with the promise to furnish

enough of the building before the meeting

of the General Assembly of 1873 to pro-

vide for holding sessions, therein. It

should be completed as soon as possible, in

order that the expensive luxury of holding

the session of the House in a church may cease, and also the leaks through which

the public treasure always loses itself may

amounts to a quarter of a million of france; the loss of the library, with its manuscripts and many precious volumes, is inestimable and irreparable. The burned contents of the picture-gallery are estima-ted at nearly half a million of france. The cost of repairing the cathedral is one an and a half million of france.

An Extinct Family.

It is a curious fact that there are no known descendants of Christopher Colum-bus. He had two sons, one of whom, Don Diego, rose to the distinction of an admiral, and the other, Fernando was a great trav-eler. He not only thrice visited America. but subsequently traversed the whole Eu-rope, and every accessible portion of Asia and Africa. He appeared to have been a profound scholar and a thoroughly good man. In his will be stipulated that his man. In his will he stipulated that his library, containing twenty thousand volumes, which he gave to the Cathederal of Seville, should be free to the people, and is to this day. From books in this collection, the late Washington Irving obtained a considerable portion of the information on which his "Life of Columbus was founded. The following quaint epitaph, almost obliterated by time, appears on the tablet which marks the site of his tomb: "What doth it profit to have sprinkled the whole world with my sweat; to have three times crossed the new World discovered by my father; to have embellished the shores of tranquit Guadalquivey, and preferred by simple tastes rather than riches, or that I have assembled around the divinities from the source of Castalla, and offer ities from the source of Castalia, and offer to thee the riches gathered by Ptomley, if passing in silence over this stone, thou shouldst fail to address a single salutation

The answer is: Because, while a surface-stream flows in through the Strait of Gibratar, a stream deep down is constantly flowing out, and the existence of this under-current is said to have been proved by a captain who sunk a basket of proved by a captain who sunk a basket of stones, by a rope, to a considerable depth, where, being acted upon by the strong stream, it towed the boat out against the surface-current. Nevertheless, the existence of the under-current has been often questioned. Dr. Carpenter, however, who has recently returned from a dredging-craise in the Mediterranean states that he took much pains to investigate this question, and that in a short time he will publish an account of the operations by which he ascertained that the outflowing which he ascertained that the outflowing under-current does really exist.
